Choice

oil on canvas

70 cm * 110 cm

The transcendental state lasts either forever or for a moment. It changes its position only after actions that you have not done before. Life is divided into "before" and "after" and all this resembles continuous nuclear reactions. The responsibility is too great in such cases and that is why it is difficult to realize the possibility of loss.

Accompanying pain, sadness, longing and expectation.

Nigrum Seraphim

oil on canvas

80 cm * 120 cm

Aggression is one way to protect oneself, one's identity and uniqueness. Despair is loss. Hatred is a mixture. Images of saints and their falls vividly depict the possibility of error and attempts to protect and accept oneself.
